Typical Greenfield - Tower

Typical Greenfield - Cabs

Rooftop, screened grillage

Rooftop mounted 'Naval' mast.

The Telespine Bristol

The company is located in an office complex on the western edge of Bristol providing easy access to the M4 / M5 motorway Network.

Our design team of Engineers and Technicians has grown to meet demand. Many of the staff have over 15 years experience in the Telecommunications Industry. The Team is able to adapt, rapidly, to the changing demands of a varying client base.

Our team has undertaken the following

Transmission Dish links for Cable & Wireless
Transmission Dish links for Anglian Water
Rooftop and Greenfield base stations for OPCS
Rollout / Upgrade/ Share - macro & micro sites for OPCS
Telnet / Airwave GBNR sites
Rooftop and Greenfield base stations for Tmobile.
Tower structure development with FLL.
Base station development – Surf Telecom
Greenfield base stations for o2

Plus the development of special structures for both Rooftop & Greenfield installations taking designs from concept through Planning to Development and eventual Build.
